

HCI Project Statement

Submission Date : 27 Dec. 2020

Dear Students

You have to implement the rules and laws we studied in HCI. Final submission will include

1. Conceptual Model Diagram
2. For your project implementation you can opt for any one of following three choices

A) Prototype Design in prototyping tools

- All screens of your application
- Every actionable object (button link etc) fully connected to subsequent landing pages or actions.
- Complete flows of Success and Failure of processes.

OR

B) If you need to do major programming revision in some of the components of your project code to incorporate HCI rules into it, you can create prototype for those in prototyping tools.

- Every actionable object (button link etc) fully connected to subsequent landing pages or actions.
- Complete flows of Success and Failure of processes.
- Document your details about Prototype part of your project and code part separately.

OR

C) Complete Project Implementation following HCI rules

- Every actionable object (button link etc) fully connected to subsequent landing pages or actions.
- Complete flows of Success and Failure of processes.

Material To upload

Packaged into a single .zip or .rar file.

1. Project Document
2. Project SourceCode
3. Prototype Share Link (To view your prototype online ... Proto.io gives share link option, other tools will also have this option) or Prototype exported files.

Project Document includes the following

1. Project Statement (Abstract or introduction of your project)
2. User Profile Summary
3. Conceptual Model
4. Process wise Prototype or Project or Both Screenshots according to your choice of project selection above (Eg. Create user is a use case so all prototype screens about that process and so on)

On Evaluation Date

You must have

1. Project Document (Soft Copy.. no need of print)
2. Prototype in running form. I'll check activities and connectivity of screens OR Actual Project in running form.

NOTE : Project Evaluation 29 and 31 December 2020. Schedule and List of groups will be announced soon.
